Description

Scope of Services	It is the intent of these specifications to set forth the goals and capabilities to be achieved through the implementation of a body worn camera system for the Fontana Police Department. Companies must provide a solution that includes a body worn camera/smart device, storage solution, training, and software interface to store, manage, retrieve, and share captured digital video. Security measures must exist to prevent recordings from being edited, deleted or overwritten before the data has been transferred. Qualified companies will also provide a service agreement which includes service on equipment, hardware and software for up to 5 years.
